

# Now is the time to get prepared

## Bio-PPE EQUIPMENT BAG

Item #36025

Today's public health threats demand an equipment bag that can transport all of the essential PPE items needed for biohazard response — and prevent further contamination.

Constructed from Impervaguard-UP material, the Bio-PPE bag provides ample room for all the CDC-recommended equipment you need to stay safe and prevent contamination.

- **Size:** 16.5"W x 12"D x 8"H
- **Material:** Impervaguard-UP
- **MSRP:** \$49.95

## Bio-PPE PERSONAL PROTECTION BAG

Item #36026

This compact kit is designed to be worn on a belt or stored in a large pocket for easy access to PPE items.

**Features:**

- Front of bag has one flat pocket and one gusseted pocket for goggles quick-access items
- Interior has two flat pockets and two mesh pockets, plus three elastic loops to secure supplies
- Interior strap prevents bag from falling open or spilling contents while worn on a belt

- **Size:** 7"W x 2"D x 8"H
- **Material:** 1000D Nylon (Black)
- **MSRP:** \$47.95
