It's time to get prepared  
and get organized.

### BioPPE EQUIPMENT BAG

Iron Duck introduced Impevanguard material to the market 30 years ago to make EMS bags that are easy to clean and decontaminate. Today's public health threats demand an equipment bag that can transport all the essential Personal Protective Equipment needed for biohazard response — and prevent further contamination.

Our *new* BioPPE bag made of Impervanguard provides ample room for CDC-recommended equipment like:

- Gloves
  - Goggles/Eye Protection
  - Gowns/Suits
  - Face shields
  - Masks
  - Respirators
- (Contents not included)*
