

THE ENHANCED

LUCAS 2 **PACK**

Contents shown are not included.

FEATURES:

- Double reinforced seams and Impervaguard UP material for durability and long life (*also available in 1000D*)
- Hi-visibility retro-reflective stripes and piping for added safety in low light
- Specially designed interior helps secure and protect the Lucas 2 from drops and falls
- Hi-visibility interior lining makes equipment easier to see and is easy to clean
- Easily adjustable ergonomic straps, plus two heavy duty side handles for comfortable carrying options

“Lucas 2 Pack greatly improves the ergonomics of deploying the LUCAS 2 device to a cardiac arrest. It's rugged design and durability allow us to store and carry our Lucas Devices safely & securely.”

- Lt. Guy Peifer

Our RUGGED, DURABLE and DEPENDABLE solution improves on your existing carry pack.

Originally designed with the Yonkers Fire Department, Iron Duck solved an industry wide problem: the Lucas 2 OEM carry case failing after just a few months of use. We not only developed a more rugged design, we improved the ergonomics by balancing comfort and stability for the user.
